PROJECTS

Online Car rental And Services Management | [HTML,CSS,JAVASCRIPT,MYSQL,PHP](#)

2024

- Developed a Car Rental and Reselling Application that enables users to rent, buy, or service cars online. Built with PHP and MySQL, it offers a secure, user-friendly interface. The platform connects car owners and customers efficiently.
- It details system design, key modules, and testing methods for reliability. Future upgrades include mobile apps and smart search filters. The app aims to simplify vehicle access through digital innovation.
